SETUP

Pajama Sam's Lost & Found™ is a high-performance multimedia program. It has been designed to take full advantage of your multimedia computer. Before installing the program or beginning play, we recommend you close any open applications or windows.

SYSTEM REQUIREMENTS

Windows® System Requirements

Pentium® or 100% compatible (P60 or higher recommended), Windows 3.1, 95/98 or higher, with 16MB of RAM (8MB free), SVGA (640X480, 256 color) graphics, PCI video card, sound card, quad-speed (or faster) CD-ROM drive.

Macintosh® System Requirements

PowerPC only (80Mhz+ recommended), with 16MB of RAM (8.3MB free), 80MB hard disk space available, 640X480, 256 color, System 7.1 or higher, quad-speed (or faster) CD-ROM drive.

INSTALLATION

Windows 95/98 Customers

No installation is required with the Windows 95/98 AutoPlay feature. Just insert the CD-ROM into your CD-ROM drive, wait for the AutoPlay window and click on the **PLAY** button. If AutoPlay does not launch the game on your system, double-click on the "My Computer" icon on your desktop screen, then double-click on the CD-ROM icon. Finally, double-click on the "autobsl.exe" file and the game will start.

Windows 3.1 Customers

Before playing ***Pajama Sam's Lost & Found***, you must run our installation program. Insert the CD-ROM into your CD-ROM drive. Select the **Run...** command from the File menu in the Windows Program Manager. Type the following into the Command Line area:

D:\INSTALL.EXE (Replace "D" with your CD-ROM drive letter)

Click on the **Quick Install** button to start the installation. Follow the on-screen instructions. The installation program will create a Humongous group in the Program Manager. A ***Pajama Sam's Lost & Found*** icon will be placed in the group to allow you to start the game easily. When the installation is finished, you may need to click on the **Restart Windows** button the first time you play.

Important Note: In order to take full advantage of the 32-bit capabilities of your computer, the installation program must copy some Windows system files to your hard disk. This will take no more than 2.5 MB of hard disk space. The installation program does not copy any of the game files to your hard disk. You will still need to insert the ***Pajama Sam's Lost & Found*** CD-ROM into your CD-ROM drive each time you play.

Macintosh Customers

No installation is required on the Macintosh. Just insert the CD-ROM into your CD-ROM drive, wait for the ***Pajama Sam's Lost & Found*** icon to appear on your desktop, and double-click it.

Help is Always at Hand

Pajama Sam's Lost & Found contains a detailed online Help File, including specific game instructions, hints and technical support information. Windows users, press the F1 key from within the game to see the online Help File or see the Readme File on the game CD-ROM. Macintosh users, double-click on the game icon to see a list of files, then double-click on the Readme File.

STARTING THE GAME

Windows 95/98 Customers

Insert the CD-ROM into your CD-ROM drive, wait for the AutoPlay window to appear and click on the play icon.

Macintosh Customers

Insert the CD-ROM into the CD-ROM drive, then double-click on the ***Pajama Sam's Lost & Found*** icon.

Important Note: In order to get the best performance from your computer, we may need to perform a video and CD-ROM drive speed test the first time you run ***Pajama Sam's Lost & Found***. The test takes 3 to 5 minutes and will run only once.

Gameplay

Sam's misplaced some of his favorite toys and needs your help to collect them. It's up to you to guide Sam through each level, jumping over and ducking under dangerous obstacles while grabbing all the toys and goodies in sight!

Game Controls

Pajama Sam's Lost & Found features both mouse and keyboard controls.

When using a mouse, move the cursor to the right side of the screen to make Sam travel faster. To slow Sam down, move the cursor to the left. Clicking the mouse button will make Sam and his friend jump, helping them collect the floating toys or avoid dangerous obstacles on the ground or in the water.

When using a keyboard use the directional arrow keys to control Sam's speed and the Shift or Ctrl buttons to jump.

Options

The Game Options dialog box allows you to make changes as you play. To see this screen, press the spacebar to pause the game and click on the Options button. Here you can choose to turn the background music off, display in a window screen and more.

Saving and Loading Games

Pajama Sam's Lost & Found uses a simple passcode system to save and load your existing games. Each time you quit playing, you will receive a passcode. You'll want to write this code down. When you restart the game, click on the **"Passcode"** button, enter your code and click on the **"Go"** button. This will allow you to start your game at the highest level you've completed.

Quitting the Game

Press the spacebar, then click on the Quit button or press Alt + F4 (Windows) or Command + Q (Macintosh).

TECHNICAL SUPPORT

Have a question? We're always happy to help. You can reach us by phone, e-mail or mail.

Help via Telephone in the United States & Canada:

For technical assistance over the phone, call Humongous Entertainment's Tech Support at 425-485-1212. Live telephone support is available Monday through Friday, 7:30 AM until 7:30 PM (PST), but may be closed on major holidays. Our Interactive Voice Response and Faxback system is also available twenty-four hours a day, seven days a week. It will provide interactive recorded answers or automatic faxback documents which will assist you in installing, running and enjoying your Humongous Entertainment programs. When contacting Tech Support, please be sure to be at your computer and have your system information ready (including make, model, RAM, video card and sound card data), as well as any error messages you've encountered (and how you encountered them). Gathering this information before you call will help our representatives provide fast, helpful service.

Assistance via World Wide Web:

Visit Humongous Entertainment's Web site (**http://www.humongous.com**) for up-to-the-minute technical information. You'll find answers to our most Frequently Asked Questions (FAQs), all the latest Humongous Entertainment product information and even an e-mail area where you can ask specific technical support questions.

Assistance via Mail:

Write to us with your question(s) at Technical Support, Humongous Entertainment, 13110 NE 177th Place, Suite B101, Box 180, Woodinville, WA 98072–9965.
